

SW10 WIRELESS SUBWOOFER

10" Powered Wireless Subwoofer

High Impact Without Wires.

The JBL SW10 powered wireless subwoofer adds impactful, deep bass to the JBL LINK BAR to create the ultimate immersive audio experience. Featuring a 10" woofer, tuned bass reflex enclosure and onboard 300-watt amplifier, the JBL SW10 delivers rich and thrilling bass without the hassle of wires. In order to provide flexible placement options, JBL has incorporated a downward firing design architecture making room location far less critical. The SW10 is the perfect add-on when you are looking for real JBL pro bass.

Features

- ▶ 10" (250mm) woofer
- ▶ Wireless audio connection
- ▶ Bass reflex port design
- ▶ Easy setup

Features and Benefits

10" (250mm) woofer

The 10" woofer has been engineered to work in tandem with the tuned bass reflex enclosure to deliver thundering bass.

Wireless audio connection

Convenience of flexible placement without the hassle of wires.

Bass reflex port design

Using this tuned design allows for greater output and deeper bass.

Easy setup

One button setup for easy connection to the JBL LINK BAR.
